PROFESSIONAL SUMMARY

- A dynamic DevOps professional with over 10+ years of experience with strong background in Build and Release, Automation, and Development of applications.
- Extensive experience in configuration of tasks, setting up project baselines, branching strategies, merging and taking regular backups of the source code.
- Experienced with Designing and implementing configuration CI and CD using GIT, SVN, ANT, MAVEN and Jenkins for Monolithic and Micro services projects.
- Experience on AWS cloud services EC2, AMI, EBS, RDS, ELB and S3 for managing multi-tier environments.
- Experience on Python Boto3 with AWS services like EC2, AMI.
- Experience in setting up infra on AWS and managing it.
- Experience on administration Build Tools like Jenkins, Nexus, and Sonar.
- Expertise in scripting languages such as Bash, Python and Ruby.
- Experience on writing Chef Cookbooks.
- Experience on Big Data systems like Kafka, Zookeeper, Aerospike.
- Excellent interpersonal communication skills and ability to work in a team.
- Experience on Docker and Kubernetes.

SKILLS

Scripting Languages

- Unix Shell Script, Ant, Python, Ruby

Configuration and Infrastructure Management

- Chef, Ansible, Terraform

CI Tools

- Jenkins

Build Management Tool

- Ant, Maven

Version Control Tools

- Git, SVN

Web Servers

- Apache, Tomcat

Containerization

- Docker

Cloud Technology

- AWS

Operating Systems

- Redhat Linux, Ubuntu, Centos, Windows

EDUCATION

Dr. M.G.R University

WORK HISTORY

Tesco Bengaluru - Site Reliability Engineer (DevOps)

Bengaluru, Karnataka • 05/2019 - Current

- Worked closely with other business analysts, development teams and infrastructure specialists to deliver high availability solutions for mission-critical applications
- Working on moving DevOps Tools like Jenkins, Nexus, Sonar, Chef from AWS to Azure
